

MTMC passes initial inspection

The Tennessee Department of Health found no significant deficiencies during its initial relocation licensure inspection this week of the new Middle Tennessee Medical Center, ahead of the hospital's Oct. 2 opening.

The purpose of the visit was to assess compliance with all the state licensure requirements at the new hospital.

"This shows we are doing what we need to be doing to run a quality healthcare organization," says Gordon Ferguson, CEO and president.

MTMC's last full unannounced state licensure inspection was in 2003.
